FUMIGATION ROOF RELEASE

Quality Pest

Services, Inc. expects to cause damage to your tile roof while performing fumigation services. We will use care when working on your tile roof; however, given the nature of the fumigation process, it is probable that damage will occur. In some cases, the amount of damage will be extensive. The amount of tile damage that occurs is dependent on the type, age, and condition of the roof. While we may be able to provide a rough estimate of the amount of damage that may occur, this estimate is based solely on past experience and the amount of damage that has occurred to comparable roofs; there is no method available to precisely estimate the number of tile that will break on each individual roof. Under no circumstances should any estimate given be misconstrued as a guarantee to the amount of damage that may occur. In addition, as specified in the terms, conditions, and liabilities, there is potential for damage to attached gutters, wiring, patio and awning covers, solar heating panels and related plumbing antennas, and chimneys.

I hereby waive, release and discharge Tombstone Termite and Quality Pest Services, Inc. from any and all responsibility or liability for tile or other types of roof damage that Quality Pest Services, Inc. may cause during the fumigation services, as well as any and all consequential property damage which may develop as a result of the fumigation services.

FUMIGATION PLANT RELEASE

Tombstone Termite

Control & Quality Pest Services, Inc. may cause damage to plants located within 18” of the exterior perimeter of the building to be fumigated. The owner, tenant, or occupant should soak the soil with water at least 12” from the foundation outward the evening before the fumigation. All plant growth should be cut back at least 18” from the building. Any plant life that is vined, climbing, trellising or attached to the structure by any other method, or cannot be removed due to size, will have to be covered and will die. I hereby waive, release and discharge Tombstone Termite Control and Quality Pest Services, Inc. from any and all responsibility or liability for plant damage that Quality Pest Services, Inc. may cause during the fumigation services, as well as any and all pre-existing plant damage.
